“I just wanted to let you know that Emma had a fantastic time at Kid’s College. She thoroughly enjoyed all her classes and is already thinking about which ones to take next year. We have limited summer camp experience but I have never had less trouble in the mornings because she was always eager to go. Not only did she learn a lot, but I have also noticed her coming out of her shell and being more self-confident. Thank you and everybody who helped for a great program and for taking such good care of her.”

“Kids’ College is a great place to give your child the opportunity to experience different activities in a non-committal, trial sort-of format. Students are encouraged to be social, work in teams and complete projects that are valuable and worthwhile. Kids’ College is also a good choice for your child’s first day away-from-home camp experience because of the level of supervision and attention to safety. There are a few programs like this in the state of Florida and, for the cost, you can’t find a better summer program to get your children involved with. After one summer, your kids will be clambering to come back again, year after year.” – Allen Venezio 7-25-14

“We are very happy with the program. Our daughter learns so much during the 2 weeks she attends and hates when it’s over. We love to see her performances at the end, and look forward all year for Kids’ College to start again.” – Lisbelle Thompson 7-14-14

“My son was quite hesitant about attending Kids’ College or any other camp. After the first day, he came home sharing all about Robotics, Science in Action, Kitchen Experiments, and all the wonderful things he got to do. The hands on learning experience intrigued him and made it interesting. Now he talks about what he will take next year! Thank you!” - Paula Anderson 7-21-14
