A YEAR OF PROGRESS
A YEAR OF PROGRESS

In this, the year of transition from the temporary site to the new Lake-Sumter Junior College site at Silver Lake, it is fitting that our theme should be that of progress. Not only material progress, but internal progress such as self-study and improvement in the areas of clubs, organizations, student government, sports and the academic program. This year will truly stand out as a year of progress.
Although this annual is dedicated to the new Lake-Sumter Junior College campus, the theme reflects the lives of the students, the faculty, and the institution itself, in terms of growth, experience and expansion.

This year has been one of amazing growth. Not only has our enrollment increased tremendously, we have also entered the halls of our long-awaited new campus. This has been the year of self-study for accreditation and the further development of an institution already
known throughout the state for its quality education. The purpose of this 1965 NAIAD is to relate the adventures of the past college year. Our trials, our achievements, our warm experiences and even our mild bewilderments are, in part, recorded herein. As we look back upon our memories may we never forget the opportunities which were made available to us by the free society in which we live.

DEDICATION

What are the components of an outstanding college? Excellent instructors, eager students, and vigorous school spirit are essential, and all of these factors are to be found at Lake-Sumter Junior College. We, the members of the annual staff, are justly proud of this fact. We also take great pride in our new campus, to which we dedicate the 1965 edition of THE NAIAD, secure in the knowledge that the qualities found at our temporary facilities shall flourish at our permanent site.
PROGRESS . . .

IN EDUCATION
FROM THE PRESIDENT'S DESK

PRESIDENT PAUL P. WILLIAMS
B.S., Taylor University
M.A., Western Reserve University
Ed. D., University of Florida

Lake-Sumter Junior College
LEESBURG, FLORIDA

OFFICE OF THE PRESIDENT

STUDENTS AND FRIENDS OF THE COLLEGE:

Again, it is my pleasure to extend congratulations to the Naiad staff for an outstanding yearbook. In these pages, words and pictures help us review our activities and achievements throughout the academic year.

What a year this has been in the brief history of Lake-Sumter! We are now on a beautiful campus with new and functional buildings. We have reached an enrollment of six hundred in just three years. Now we are planning for additional facilities and a larger student body next year. So what's new? This and so much more!

Fortunately, much has not changed. We enjoy continued community support and interest. The Board and Advisory Committee continue to push for excellence and provide advice and financial support. The college faculty remains dedicated and professionally competent. Students continue to seek wisdom and the ability to think.

Vision and hard work can make for an even greater junior college in the years ahead. Let all of us use what we have gained this year that we may serve our generation acceptably and well.

Sincerely yours,

Paul P. Williams
President

"Serving The Heart Of Florida"
AN INSTITUTION GROWS

Lake-Sumter Junior College was authorized by the 1961 Florida Legislature as the result of the efforts of interested citizens and school officials in Lake and Sumter counties. On January 2, 1962, Dr. Paul P. Williams was selected from forty applicants to become the first president, and Lake-Sumter Junior College began a co-educational program as a member of the state junior college system.

Temporary quarters for the college were established at the west end of the Leesburg High School campus. Faculty and staff were selected and instruction began in the fall of 1962. A permanent site, 73 acres located midway between Tavares and Leesburg on U.S. 441, was provided by the City of Leesburg. The ground-breaking ceremony was held in May, 1964, and was attended by Governor Farris Bryant, the principal speaker. This formalized the initial construction of permanent facilities for the college. The first state appropriation consisted of $674,917.00. These modern facilities totaling some 43,000 square feet were first occupied in January, 1965.

In the first year of operation the full-time faculty numbered 27, not counting many part-time instructors. There were 387 full-time and part-time students enrolled. By the third year of operation the student body had grown 61.6 per cent to a total of 893 full-time and part-time students. During this period the full-time faculty increased 46.7 per cent to a total of 25.

Since the college is located in Lake County, the Lake County Board of Public Instruction serves as the local, legal governing body for the institution. In addition, an advisory committee of nine outstanding citizens from Lake and Sumter Counties make recommendations to the Board concerning the college, especially on budget, personnel, and program matters.

Lake-Sumter Junior College is fully accredited by the Florida State Department of Education.
GOOD FRIENDS OF L.S.J.C.
THE LAKE COUNTY SCHOOL BOARD

Fred H. Adkinson, Vice Chairman, Clermont; Edwin Mattson Jr., Mascotte; M. O. (Buster) Williams, Mount Dora; Walter L. Manley, Leesburg (outgoing - Burton Brown incoming - photo not available); Paul W. Bryan, Chairman, Umatilla; L. J. Jenkins, Tavares, County Superintendent (outgoing - Jack Morgan incoming - photo not available).

THE SUMTER COUNTY SCHOOL BOARD

SEATED: Carl L. Binger, Bushnell; Roy Caruthers, Oxford; John Wallace, Wildwood; Sherman G. Wilson, Webster; STANDING: Ernest Smith, Chairman, Coleman; Herbert Simmons, County Superintendent, Bushnell.
Greatly increased enrollment called for the quick construction of another shell building classroom at our temporary site.

The classroom, donated for the interim by Mr. Browne Gregg, was the seventh such building on the old campus and was barely completed for the beginning of fall term classes.
Construction began at the new permanent Lake-Sumter Junior College site in May of 1964. The new college campus is situated on a 73 acre site adjacent to Silver Lake. The land was donated to the college for this purpose by the City of Leesburg, and will have an eventual capacity for accommodating 1500 students.
BUILDING THE LIBRARY to house the volumes which build minds.

The South wing of classrooms leads to courtyard.
THE DEANS

The Dean of Instruction assumes the responsibility for quality and the content of course offerings. He prepares the college calendar and the catalogue and is responsible for maintaining high accreditation standards.

WILLIAM C. BUNGERT
Dean of Instruction

The Dean of Students is in charge of admissions, testing, and the guidance and counselling program. He oversees student activities and assists in housing and health services. He is also responsible for the orientation program.

E. JON BRUNS
Dean of Students

The Dean of Services acts as Registrar for the college. He coordinates all registration procedures, keeps student records, and evaluates credits and standings. He handles salaries, loans, scholarships, and internal accounts, and helps prepare the budget.
