Welcome to Kids’ College
Clermont
Held at East Ridge Middle School
13201 Excalibur Road, Clermont FL 34711
Kids’ College Registration Office: (352) 365-3556

How to Register:

Mail: Easiest & Earliest Way To Register
Mail-In Registrations Accepted Immediately!

Drop-Off Accepted:
Drop-off registrations will be accepted and added to the mail-in registrations.

Scanned and Emailed Registration Accepted at: kcreg@lssc.edu
Because of size, it is best to use the web registration form located on the Kids’ College website:
www.Lssc.edu/kidscollege

Faxed in Registration accepted: 352-435-5044

Late Registration Fee Begins:
If space is available, a $25 late registration fee begins:
• Program 1 - May 31 - June 2, Tuesday to Thursday
• Program 2 - June 14 - 16, Tuesday to Thursday
• Program 3 - June 28 - 30, Tuesday to Thursday

Last Day to Register:
• Program 1 - June 2, Thursday
• Program 2 - June 16, Thursday
• Program 3 - June 30, Thursday

In order not to compromise the efficiency of the program, NO registrations will be accepted after the above dates.

Avoid Registration Delay:
To avoid delays in registration, mark 3 choices for each class period your child will be attending. Do not select your 1st choices as 2nd and 3rd choices in other periods because if your first choice is full one period, we will automatically look to see if it is offered and available another period. We need to have other choices to select from when a class is full.

Kids’ College T-Shirt & Cap (optional):
• $16 for Cap • $16 for T-Shirt • $27 for both when pre-ordered with registration.
If purchased after registration:
$16 Cap, $16 Shirt or both for $32

Register Early By Mail
Don’t Delay

• Program 2  (7) Half Days: $92 (7) Full Days: $184
  • Late Care Program 1: $34
  • Late Care Candy Confectioner, Program 2: $41
• Program 3  (8) Half Days: $104 (8) Full Days: $208
  • Late Care Program 3: $39
  • Late Care Candy Confectioner or Crafty, Program 3: $46

Sign up for Late Care on the registration form.

Processing Fee (only if changes): Due to the popularity of the program and the tracking/paper work involved, we must charge a $20 processing fee for change of class once registered. To avoid this fee, please take time to discuss all classes with your child so you will register them in the appropriate classes the first time.

Refunds:
Because of the processing time involved, we must retain a $45 fee if you choose to withdraw your child from a session. The balance will be refunded as long as you personally contact the Continuing Education Office and follow-up with a written notice ten days before session begins. Due to the popularity of the program, this will allow us a chance to let someone else have your spot.
**When to Arrive...**

**Morning Session:**
- Arrive 8:30-9:00 am, Cafeteria
  East Ridge Middle School
- Arrive 7:30-8:30 Complimentary Early Care

**Afternoon Session:**
- Arrive 12:30 pm, Cafeteria
  East Ridge Middle School

**Confirmation Letters:**
Confirmation letters will be sent out the end of May. You will receive a letter only if your registration is in hand by the end of May. Otherwise, you will get your label with classes listed either at orientation or on the first day of Kids’ College.

**Orientation Session:**
We will have an optional brief orientation on Monday, June 13, 2016 at 5:30 p.m. in the Cafeteria at East Ridge Middle School. Some teachers will be present at this orientation and you will have the opportunity to meet them.

**Age Levels for Classes:**
There are classes offered every period specifically for younger and older students. If a class does not list grade level, all grade levels may enroll.

**Performance Days:**
If your child is performing, you are welcome to come in and view the performances the last day of each program. Performances usually take place from 12:15-12:45 the last day during announcement period. Watch for more information to come home with your child.

**Afternoon Students:**
Students should arrive early, around 12:10 on performance days and morning students might want to stay until 12:45 pm on that day.

**Performance Dates:**
- Program 1: June 23, Thursday
- Program 2: July 7, Thursday
- Program 3: July 21, Thursday

**Rainy Days:**
On rainy days, outdoor activities will move inside. No make-up days will be held if unforeseen weather disrupts Kids’ College.

**Supervised Drop-Off and Pick-up Times**
This will take place in the cafeteria during supervised times listed below.

**Drop-off Times:** *(Do not have to get out of car)*
- 7:30 – 9:00 am Arrive for Morning Session
- 12:15 – 12:40 pm Arrive for Afternoon Session
  Use bus loop at the back of the school.

**Pick-up Times:** *(Must come in and sign out)*
- 12:15 – 12:40 pm After Morning Session
- 4:10 – 4:35 pm After Afternoon Session
- 5:10 – 5:30 pm After Late Care

**For The Safety Of All Children:**
You will be required to park and come in to the cafeteria to check out your child. You may park in the outside edge of the bus loop at the back of the school leaving the inside of the loop free for cars to pull out and leave.

If dropping off or picking up your child outside the normal drop-off and pick-up times listed on the back of your schedule card and in your letter, you must park and come to the Kids’ College Office, to check your child in or out with the teacher or staff. Watch for procedures in the confirmation letter.
A Bit of Spanish
PM Program 2 & 3, Period 3
Are you interested in learning a second language? Do you want to have fun in doing so, keep pace with popular culture, increase your mental ability, help others, and widen your personal potential? Join us! You will write a daily personal journal and learn how to greet and communicate with your fellow class mates in Spanish. You will also learn how to recognize many items, count to 500, sing songs, participate in a conversation, and name foods, all in Spanish! We will even have some delicious Latin desserts to sample. You may boost your confidence and establish a rapport while meeting and greeting new friends. Bienvenido!  

Instructor: Mariah Morton

Acting: Excitement of Musical Theatre
AM Program 3, Period 1
Do you dream of being a star on Broadway? This class will teach you what it takes to be a professional performer. Learn the hip, hooray, and ballyhoo of 42nd Street. Perform scenes and songs, study the techniques used in auditions, and become skilled with stage directions and movement. At the end of the class, perform in a musical theatre variety show, filled with singing, dancing, and acting. All new material for 2016!  

Instructor: Mariah Morton

Acting: Mission Audition
AM Program 2, Period 1
Do you want to be in a commercial, star in the next school play or even be more confident at your next speech competition? Well the first step is the perfect audition. You will learn everything you need to ace your audition, then put your new skills to the test as you prepare for an end of session performance.  

Instructor: Mariah Morton

Acting: Improvisation Grades 3-9
PM Program 2 & 3, Period 3
Did you know that some actors don’t even use scripts? Instead they make it up on the spot using their imagination! Come play games, have a laugh, and learn a technique that’s useful both inside and outside of theatre. Every day will be something new.  

Instructors: Program 2, Mariah Morton; Program 3, Kaitlin Baxter

Acting: Express Yourself Grades 4-9
AM Program 3, Period 2
Take a deeper look into the technique of acting by learning the importance of speech, movement, and expression. This class will teach the structure of acting and then apply these skills to scenes, speeches, and even pantomimes that you get to create. By developing a better understanding of expressing yourself on stage you will grow as an actor and become more confident in many other areas. All new material for 2016!  

Instructor: Kaitlin Baxter

Acting: Once Upon A Time
PM Program 2, Period 4
Have you ever pretended to be a knight or a princess? Is the villain a bad guy or just misunderstood? You get to decide. Students will learn about the history of fairy tales before creating a story that they will star in!  

Instructor: Mariah Morton

Amazing Race Grades 4-9
AM Program 2 & 3, Period 2; PM Program 2 & 3, Period 4
Come have some fun competing with others in all types of challenges! Have what it takes to de-code clues and find hidden treasures? Want to race your friends and follow maps to be the first at each destination? Travel the campus and see if you have what it takes to complete and win the Amazing Race.  

Instructor: Heather Ciaramitaro

Angry Birds Live
AM Program 1, 2 & 3, Period 1
The survival of the Angry Birds is at stake. Dish out revenge on the greedy pigs who stole their eggs. Use the powers of the birds to destroy the pig’s defenses. Players build a structure and launch an Angry Bird in an attempt to knock it and the pigs down to win points. The popular video game comes to life as players pull back a slingshot loaded with Angry Birds and let them fly at the pigs.  

Instructor: Kaitlin Baxter

Archery
AM & PM Program 1, 2 & 3 All Periods
Can you hit the bull’s eye? Go for the gold and win award stickers as you master the basic steps in using a bow and arrow. Students will learn safe shooting techniques. Or with prior experience in Archery, you will improve your archery skills by learning advanced aiming techniques, shooting from greater distances and enjoying challenging new games. The course will end with games including a balloon shoot and an official tournament with award ribbons.  

Instructor: Adam Taylor

Art: A 2D Experience
PM Program 1, Period 4
Create a mini artist portfolio complete with your own handmade paper, watercolor, pen and ink abstract, your prints from printmaking, paintings and optical illusions.  

Instructor: Victoria Wasden

Art: 3-D
AM Program 2, Period 1
Come join the fun as we create artwork using 3-D! We will be making “emerging” hands, weaved paintings, pipe cleaner flowers, and a lot more.  

Instructor: Jamey Crider

Art: 3-D with Paper Mache
AM Program 1, Period 1
Begin your Paper Mache adventure by making a personalized mask. Then broaden your skills creating a three dimensional sculpture of your choice. We will paint and embellish them as you wish.  

Instructor: Victoria Wasden
Art: Animals and Everything in Art  
PM Program 2 & 3, Period 4  
What could be more fun than making animals? Making animals with chalk paintings, tangles, tie – dye, cartooning, tessellations and much, much more!!!! Each student is asked to bring in a white or light tee shirt the first week for tie dying. **Instructor:** Jamey Crider

Art: Cartoon Art  
PM Program 1, Period 4 Grades 2-5  
Ages 7-10. Turn your doodles into designs of delight in this fun and colorful course. Let your imagination go wild while you hold the pencil and draw your own comic strip complete with color, word bubbles, and lettering. Learn skills like drawing people, animals, and inanimate objects. Sketch your own original creations. **Instructor:** Amanda Pryor

Art: Clay Works  
AM Program 1, Period 2; PM Program 1, Period 3  
Explore clay by learning to use the pinch, coil, and slab techniques of using clay. Create your own relief wall hanging, a crazy cool treasure box, and a trinket bowl with secret writing. **Instructor:** Victoria Wasden

Art: Ceramics  
AM Programs 2 & 3, Period 2; PM Programs 2 & 3, Period 3  
Ceramics will be a “breath of fresh air” as we once again use “air dry” clay to make usable art: frog holder, octopus helper, nature pocket and more. Clay is a wonderful way to express you in nature and art. **Instructor:** Cara Sanderlin

Art: Neon Paintings  
AM Program 1 & 2, Period 1; PM Program 1 & 2, Period 3  
Students will explore the use of neon paints and create a variety of paintings and other painted neon items. These images will glow when viewed with black lights. Subject matter will be based on personal student interests. A variety of materials will be available so that the older students can work at a higher level and with appropriate materials. **Instructor:** Jamey Crider

Art: Plaster Mache  
AM Program 3, Period 1  
Have you ever wondered how to make a plaster Mache mask – well wonder no more! Students will learn about the history of masks from around the world as they make their very own using plaster, newspaper, paint, decorations and creativity!!! **Instructor:** Jamey Crider

Art: The Art of Zentangle  
AM Program 1 & 2, Period 2  
The art of Zentangle is easy-to-learn, relaxing, and fun way to create art using structured patterns. It increases focus and creativity by using simple deliberate strokes which build on each other in beautiful, mesmerizing, and surprising ways. For beginners to advanced level artists. **Instructor:** Shelly Meneses

Balloon Bonanza  
AM Program 2 & 3, Period 1; PM Program 2 & 3, Period 3  
Everyone loves balloons! In this class you will enjoy team activities, individual competitions, learn different creations for balloons, create your own masterpieces and make fun designs! All with balloons! **Instructor:** Heather Ciaramitaro

Basketball  
AM Program 1, 2, & 3, Period 1 and PM Period 3 Grades 5-9  
AM Program 1, 2 & 3, Period 2 and PM Period 4 Grades 2-6  
Learn the FUNDamentals of dribbling, passing, and shooting a basketball through daily drills, games and team competitions. Students will be grouped according to age, size, and ability. **Coach/Instructor:** Derek Greene

Baton Twirling  
PM Program 1 & 2, Period 3 & 4  
Have a fun and exciting time with baton twirling, flag batons, hoops and more. Students will have the opportunity to learn a complete routine and perform in front of an audience, in just eight days! Batons will be provided, or students may order their own baton for $20 at orientation or the first class. Come have a blast with our newest tricks and routines! **Instructor Program 1:** Evelyn Pelton; **Program 2:** Alex Manganiello

Beading: To Bead or Not To Bead  
AM Program 2, Period 1  
Welcome to the wonderful world of beads. During this course you will have the opportunity to complete projects like pins, frames, table weights, bookmarks and you will even customize your very own unique flip flops. You will also be introduced to fuse beads and their multiple options and designs. Get ready to BEAD yourself!!! **Instructor:** Enriqueta Salvatierra

Beauty Boutique  
PM Program 1, 2 & 3, Period 3  
This class is filled with everything girly! Expect all crafts, creativity, and of course…. Sparkles!!! In this class, students will be able to express their artistic ability through many fun and glittery projects! Get excited to see each student bring home dazzling hair accessories, shiny homemade jewelry and gifts, fluffy flip flops, and “bling” on anything and everything. If you have enjoyed making wearable bows in Spirit Cheerleading or the first class. Come have a blast with our newest tricks and routines! **Instructor:** Evelyn Pelton; **Program 2:** Alex Manganiello

Board Games/Family Fun  
PM Program 1, 2 & 3, Period 4  
Long before there was the Xbox or Play Station, even before Nintendo, there were board games to keep kids occupied and entertained. Thankfully, board games have survived the onslaught of computer games and gaming systems. Board games let families and friends spend quality time together to get to know each other. Board games are universal and timeless in their appeal, with each culture creating games to unwind and relax; play and learn how to play different board games with us! **Instructor:** Chelsea Seabrook

Weather Channel 1  
AM Program 3, Period 2  
Fascinated on how it can be raining one minute and then sunny the next? This class will teach you what meteorologists have to know. How will you be at predicting the weather? This class will put you to the test. Activities in this class will include making weather stations, games, labs, and producing your own weather podcast. The weather is outside so that is where we will be observing. Will you be the next one we see on the morning news or the one who wants to chase down tornados? Students will explore career opportunities available in the field of weather and climate. **Instructor:** Tara Ingram
Building a Miniature Golf Course Grades 3–9
AM Program 1, 2 & 3, Period 2
This is your chance to design a fun, challenging, and exciting putt-putt golf course that every kid would want to play. You will work with a team to design and build the ultimate golf course hole made of recycled materials. When the course is built, we will play a miniature golf tournament with prizes for the best design and top scoring golfers. Please collect a bag full of recyclable cardboard, plastic soda bottles, and other items that would make good obstacles in your course. Instructors: Program 1, Marni Whitehead; Program 2 & 3, Nicole McMahan

Chemistry Crazy
AM Program 2, Period 1; PM Program 3, Period 3
Do you like to experiment and invent? Then this is the class for you. Young scientists will use chemistry to solve a crime, make edible pop rocks, create a sunset in a bag and make lip gloss and make some elephant toothpaste. Students will have to opportunity to explore basic concepts and careers related to chemistry with music, games, and a hands on and fun approach. Come with your ideas and imagination, maybe we can find an experiment that fits you as a future chemist! Instructor: Tara Ingram

Cooking: Creature Creations
PM Program 3, Period 3
Ever had a whale-wich? That’s a sandwich shaped like a whale. You will create yummy snacks in the shape of fun, eye-catching creatures. We will take pictures of your creations for your recipe book just before you enjoy the taste of your creatures. Instructor: Toni Beckett

Cooking: Decorating Basics
PM Program 2, Period 3
Students will learn basic cake decorating techniques and will practice on their own homemade cookies and cupcakes. We will work as a team to plan, bake, and decorate a cake worthy of being the center of attention at their next party. Instructor: Toni Beckett

Cooking: Food Wars
PM Program 1, Period 3
Which is better? Snacks from the microwave? Or snacks from the oven? You will create different recipes, cook them, taste them, and then vote. You be the judge. You have never tasted Chex Mix, Cupcakes and Pudding like this before! Instructor: Toni Beckett

Cooking: Kids in the Kitchen
Grades 5–9
AM Program 1, 2 & 3, Period 1
Kitchen safety and sanitation are the underlying lesson as children use a variety of kitchen tools and appliances to prepare simple recipes. Omelets, pancakes, French toast, smoothies and muffins. Instructor: Toni Beckett

Cooking: Pizza Pizzaz
AM Program 1, 2 & 3, Period 2
Learn to make dough, toss it, twirl it, and let it rise. Then top it and bake it for the perfect pizza pie. Learn to make smaller pizzas in the microwave as well. You will be an Italian chef before you know it. Instructor: Toni Beckett

Cooking: Restaurant Possible
PM Program 1, 2 & 3, Period 4
You will compete with other classmates to create the best dessert restaurant possible. You will learn to decorate, cook, and serve desserts as well as create a menu and theme for your restaurant. At the end of the class, you will serve your parents, who will vote on the best restaurant. Instructor: Toni Beckett

Creative Writing: Express Yourself
Grades 4-9 AM Program 3, Period 2
Description: Writing is about showing who YOU are. If you like writing, expressing who YOU are, or would like to learn a thing or two about writing, then this is the class to take. This class is all about writing in different ways, NOT just the standard essay. We will dive into the multiple ways writing helps you clear your head and the different forms it can take. Students have the opportunity to explore the art of writing in its most basic form to learn how to express themselves. Instructor: Danielle Bowen

Creative Writing: Spur Your Imagination Grades 2-5
AM Program 1, Period 1; PM Program 2, Period 3
Have you ever tried to write something creative, but you just don’t know where to start? In this class we will be using some creative writing activities to get your juices flowing. Musical Poetry, Grab Bag writing, and even Art to spur our imaginations. Instructor: Shelly Meneses

Creative Writing: The ART of Writing
Grades 2-5 AM Program 2, Period 1; AM Program 3, Period 1
Writing is an ART and ART is writing using pictures and colors! If you like to write and draw and color and craft then please join us as we unleash our creative spirits. In this class, students will look at and create images and works of art for creative writing inspiration. We will tap into our inner creativeness, exploring poetry, especially concrete and free verse. Creative writing does not always have to be expressed in written story form. Students will also explore the use and idea of “poetic justice” as a way of expression and creativity. Instructors: Program 2, Jennifer Jones; Program 3, Danielle Bowen

Dance Cheer Style
AM Program 1, 2, & 3, Period 2
Do you like cheerleading? Do you like dancing? This is a perfect combination of cheer style dancing with sharp moves to fun, fast paced music. Students will be introduced to a variety of dance combinations to different music each day. This is a fun class that will allow you to dance and show your spirit. Instructor: Chelsea Seabrook

Dancing Through the Decades
PM Program 3, Period 4
Take a trip through time and learn a variety of dances from the past century. Learn the Charleston from the 1920’s, swing from the 40’s, disco from the 70’s, hip hop from today, and every other decade in between. Each day new steps will be learned to create a fun dance for each decade. These routines will then be performed during an end of session recital. All new choreography for 2016! Instructor: Kaitlin Baxter
Dramatic Children’s Literature  Gr 2-6
AM Program 3, Period 2
Do you enjoy reading fun children’s literature? Do you imagine acting out what you are reading? Come join this exciting adventure with children’s literature! We will be reading poems for two voices, acting out picture book variations of popular tales, writing and demonstrating our own versions of genres and much more!  
Instructor: Heidi Cook

Eco Accessories
AM Program 2, Period 2
Make beautiful, original accessories using eco-friendly materials! Seashells, bottoms, paper and everyday objects that will create truly unique and one-of-a-kind pieces. Imagine the compliments you’ll get when you use your handmade accessories! You will have the coolest accessories and you made them yourself! We’ll make necklaces, bracelets, earrings, pendants, and some things to use around the home.  
Instructor: Enriqueta Salvatierra

Engineering: The Great Challenge
Grades 3-9
AM Program 1, 2 & 3, Period 1
Do you like to compete against others in creative engineering challenges? Join us for some scientific “outside the box” thinking and creating that will put you in the Winner’s Circle. In this class, you will build and design towers, bridges, and vehicles that will be put to the test. Who can create the boat that will hold the most golf balls without sinking? Who can make the longest bridge? Who can make the highest tower? You will have a new opportunity to win every day! Are you up to the challenge?  
Instructors: Program 1, Marni Whitehead; Program 2 & 3 Nicole McMahan

Exploring the Deep Blue Sea
PM Program 2 & 3, Period 4
Have you ever wondered about the world under the sea? Do you love animals and science? You can’t miss this amazing class. Young scholars will learn about sea animal anatomy by dissecting a shark and starfish. They will map the ocean floor, track sharks, collect data on water quality and clean up an oil spill. Student oceanographers will learn about animal behavior in mammals such as dolphins. Class time will be spent doing hands on experiments, playing games and interactive applications. The class will highlight career opportunities in oceanography and biology.  
Instructor: Tara Ingram

Famous Athletes in Sports
AM Program 3, Period 2
Ranging anywhere from Derek Jeter to Mia Hamm to Steph Curry, athletes of every sport break down walls, set records, and become the greatest, the most well-known, and the most memorable in sports history. In this course, students will explore a variety of athletes and the legendary impact they have made on the sports world. Many athletes come and go, but the unique, the record-setting, the incredible few….they remain forever.  
Instructor: Courtney Hayes

Fashion Design
Grades 5-9
AM Program 2, Period 2
Do you enjoy fashion? Are you talented in putting together outfits? Then Fashion design is for you! We will design, draw and create outfits together, then display them for all to see.  
Instructor: Jennifer Jones

Fiction Fan or Fan Fiction?
Grades 4-9
PM Program 1 & 2, Period 4
Do you love creating stories? Do you want to write fiction but you are not sure where to start? Have you ever read a book and wanted more stories about the characters? This is the class for you! We will be going through strategies of writing fiction stories and how to write fan fiction with plenty of writing time for you to begin your next bestseller!  
Instructor: Shelly Meneses

Flag Football
AM Program 1, 2 & 3, Period 2; PM Program 1 & 2, Period 4
Designed to introduce the beginning player to the basic skills and functional responsibilities of each player on a football team, students will play games and be taught positions, rules, and technique.  
Coach/Instructor: Matt Davenport

Frisbee/Disc Golf
PM Program 3, Period 3
Come learn and play the growing sport of disc golf. It’s played much like traditional golf. Instead of a ball and clubs, however, players use a flying disc, or Frisbee. The sport was formalized in the 1970’s with the object of completing each hole in the fewest number of strokes (or, in the case of disc golf, fewest numbers of throws). A golf disc is thrown from a tee area to a target which is the “hole”. The hole can be one of a number of disc golf targets; the most common is called a Pole Hole; an elevated metal basket. As a player progresses down the fairway, he or she must make each consecutive shot from the spot where the previous throw has landed. The trees, shrubs, and terrain changes located in and around the fairways/course provide challenging obstacles for the disc golfer. Finally, the “putt” lands in the basket and the hole is completed. Disc golf shares the same joys and frustrations of traditional golf, whether it’s sinking a long putt or hitting a tree halfway down the fairway.  
Instructor: Matt Davenport

Game Shows
AM Program 2 & 3, Period 2
Join in on the action! Participate as a game show contestant or team member and compete for prizes. You and your opponent have 60 seconds to complete a challenge, which increases in difficulty as the game progresses. Will you succeed or be eliminated when you play “Minute to Win It”? Are you able to price items, gain points and have the opportunity to pick door number 1, 2, or 3 during the game, “The Price is Right”? Can you or your classmate answer 1st to 5th grade questions in the game of, “Are You Smarter than a 5th Grader?” We will also play other games, such as, “Who Wants to be a Millionaire?”, “Hollywood Game Night”, and “What’s my Line?” Don’t miss this exhilarating experience!  
Instructor: Genee Hernandez

Great Mind’s Think Alike
PM Program 1, Period 4
Have you ever had a great thought? We all have! You are a great thinker! So come along and think along with the great thinkers through history. Build a flying machine like DaVinci. Invent something like Edison. Explore the stars like Galileo. Discover gravity with Newton. Expand your mind as you explore great thoughts of scientists and mathematicians throughout history through hands-on activities and real live on-the-spot thinking!  
Instructor: Marni Whitehead
Guitar, Beginning
PM Program 1 & 2, Period 3 Grades 2-6; Period 4 Grades 5-9
This class introduces the basics of guitar playing in a fun group environment. There will be lots of hands on participation as we learn to read guitar tablature and play songs together. Students will begin by playing on their open strings, progress to using the fret board, and finally work on power chords. You may bring your own guitar or rent a guitar at www.NextStepEd.com to take home and use in class during the 2 week session. Rental guitars will be handed out at the first class. Instructor: Tracy Welsh

Harry Potter: Hogwarts Adventure AM Program 3, Period 1; PM Program 3, Period 3
Disembark from the Hogwarts Express and into the magical world of Harry Potter! Following the Sorting Ceremony, students will compete for house points in everything from wizard knowledge to the Quidditch Cup! Take classes in Potions, Care of Magical Creatures, Charms and Defense against the Dark Arts. With lots of Harry Potter trivia, Bertie Botts Every Flavor Beans and loads of fun, this is one adventure you don’t want to miss! Unpack your cloak, leave the muggle world behind and accept your invitation to Hogwarts! We’ll see you at the start of term feast. Headmaster: Allen J. Venezio

Harry Potter: Prefects in Training, Level II AM Program 3, Period 2
This class is designed as a second level Harry Potter course. Heavy emphasis will be placed on the original J.K. Rowling text. Although it is not a requirement, it is strongly recommended that students have read all seven volumes and have taken the Hogwarts class prior to registering for this advanced course. Activities will include character role-playing, intermediate to advanced trivia and lots of in-depth Harry Potter fun. If you’re ready to start your studies towards becoming a prefect, join the Headmasters for this magical journey back to Hogwarts! Headmaster: Allen J. Venezio

Heroes in Action PM Program 2, Period 3
Got Super Hero fever? How about learning more about your favorite Super Hero and using this information to design your own unique Super Hero adventure. You will create your own comic book using your own plot, your own setting and even super villains. Creativity is required! Put your cape on and let’s save the day! Instructor: Enriqueta Salvatierra

Inside the Earth (Rocks and Fossils) PM Program 2, Period 3
Quartz, Ruby, Diamond, Granite…Dinosaur bone? Like picking up things you find in the dirt but wonder what they are and how they got there? Well this class is for you. If you want to know more about the rocks you collect or just want to know more about what our amazing planet can create. Our planet can tell stories by the rocks, minerals and fossils we find. Learn about the many kinds of rock and how to test and identify them. Games, labs and a chance to make your own pet rock. Information on cool jobs like paleontology and geology will also be discussed. Rock on!! Instructor: Tara Ingram

Instrumental Musicianship / Summer Band Grades 5-9 AM Program 1, 2 & 3, Period 1
This class is for students who have already had experience learning a band room instrument. Keep your skills in place over the summer by working on various solo and small ensemble music in a summer classroom setting. We will work on tone quality and expressive qualities of playing while learning music from popular movies and TV shows. Students must have prior experience on an instrument such as flute, clarinet, trumpet, saxophone, trombone, etc. Students are encouraged to bring their own instrument. Instructor: Robert Walker

Interest in Pinterest AM Program 1 & 2, Period 2; PM Program 1 & 2, Period 4
Students will explore and create Pinterest projects with guidance from the instructor. Pinterest is a great source for creative ideas, so this class allows the students to choose and produce the projects that they are excited about. Examples of Pinterest projects include: make your own glow bouncy ball, galaxy slime, foosball table, sun catchers, lava lamp, or so many more possibilities! Instructor: Cara Sanderlin

Jr. Engineers STEM Challenge Grade 2-6 PM Program 1, Period 3
Compete in daily challenges that test your science, technology, engineering, and mathematics skills. Show off your skills as you build, construct, and make inventions that will perform required tasks using limited supplies. Work to solve problems in given time limits. Work as individuals, in pairs, and in teams to rack up points toward final prizes. Instructor: Marni Whitehead

Kids Time News Grades 3-6 PM Program 1, Period 3
Students will learn the behind-the-scenes inner workings of a newscast; will learn about television production and all of its various components. The members of Kids Time News will write, direct, produce, and star in their own newscast. Instructor: Amanda Pryor

Lego Land Creations Grades 2-5 PM Program 1, 2 & 3, Period 4
Become a Lego Brick Master! You’ll learn techniques to help build cool contraptions and work in teams to construct daily projects, like cars, planes, forts, and buildings! Teams will compete for points to decide who the ultimate Lego Brick Master is. At the end of the course, your team will work together with the other teams to create an entire themed city, using the skills you learned in class. Instructor: Joey Wright

Lego Land Creations Advanced Grades 5-9 PM Program 1, 2 & 3, Period 3
Future builders, engineers, and creative thinkers—this is a class built especially for you! Get ready for the ultimate Lego building competition! You’ll learn advanced Lego building techniques and compete in a new contest every day. In teams, in pairs, or just by you, each event will bring a new challenge—whether it is building a spacecraft, military machine, imaginary city, or a futuristic vehicle. In the end, using a competitive points system, only one can be crowned as the ultimate Advanced Lego Brick Master! Instructor: Joey Wright
Clermont: Kids’ College Rocks 2016

Let’s Play Ball (Indoors)
AM Program 1, 2 & 3, Period 2; PM Program 1, 2 & 3, Period 4
For the sports enthusiast, we will have fun playing games such as variations of dodge ball, and variations of indoor kickball and t-ball. We will also work on various skills such as throwing and catching.
Instructor AM: Joseph Wright; PM TBA

Like a Good Mystery
AM Program 1, Period 2
Want to learn about the law from the crime scene to the court? Come join us for a real-life mock mystery where you will be a part of a mock crime scene, police investigation…including the art of interrogation, and a mock courtroom. We’ll role play the parts of each and every one will have a chance to participate…who knows? You might even get to be the judge! You will completely enjoy learning the mysteries of police work and law.
Instructor: Amanda Pryor

Magic of Words Grades 5-9
AM Program 3, Period 1
Did you know that learning 10/10/10 parts of words can unlock the meaning to over 10,000 words? This class will be learning, illustrating and exploring the possibilities of unlocking the meaning of words used in a wide range of subjects while reading informational and recreational reading passages. Come enjoy unlocking the Magic of words!
Instructor: Heidi Cook

Mission to Mars
PM Program 2, Period 2
Future Astronauts and rocket scientists come together for a trip around the universe. We will explore our place in the universe, the big bang, our sun and moon, nebulas quasars and black holes, Jupiter and its moons, and the forces of the Universe. On the final day, students will build and launch their own rockets. Activities will include games, labs, hands on activities and engaging read-a-louds. If you want to know what career you can have working with the wonders of our universe then this is the course for you!
Instructor: Tara Ingram

Nail Polish Art
PM Program 1, 2 & 3, Period 3
Who doesn’t love to have pretty polished, glamorous nails? Learn techniques on how to not only paint nails, but also apply rhinestones, stickers, and painted designs. Everyone can have fun creating unique nail art on mannequin hands. Come and learn glam-skills for dazzling nails!
Instructor: Julie Cripe

Nintendo DS Battle
AM Program 1, 2 & 3, Period 2
Never play alone again! Challenge one friend or the entire class to your favorite video games in a multiplayer melee! If you share the game, we’ll play it! Imagine the destruction of a four-player Super Smash Bros. match or a live 8-way Mario Kart race! It’s time to see who the best is. Dominate your friends. Students must bring their own Nintendo DS (any Nintendo DS Lite, DSI or 3DS) and are responsible for its care while on campus. * Nintendo DS required.
Instructor: Larry Edwards

Nuc-em
PM Program 1, 2 & 3, Period 3
Play the game that all kids love where you’re throwing and catching over a net. Be the last one standing to win the game with superior catching and throwing skills. Help teammates use strategies and tactics to win their game. Game is for all ages and abilities.
Instructor: Jimmy Phillips

Origami
PM Program 1, Period 3; AM Program 2, Period 1
Interested in the Japanese art of paper folding? In this class we will learn basic techniques for Origami and fold objects, animals, and more. We will begin at the beginner level and by the end you will be folding Origami dragon!
Instructor: Shelly Meneses

Philanthropist, I Want To Be!
PM Program 1, 2 & 3, Period 4
Have you ever wanted to help others and make your community better? If so, learn to be a philanthropist. We will discover how we can do our part to make the world a better place. Show how much you care about others, animals, and/or the environment. Discover what you are passionate about and how you can use your time, talents, and treasures to improve your community. Participate in a community service project and more!
Instructor: Julie Cripe

Pitch Perfect
AM Program 1, Period 2
Create and perform a Capella music without instruments as background accompaniment. Sing arrangements of songs around the world to current hit songs.
Instructor: Robert Walker

Robotics Challenge Grades 2-5
AM Program 3, Period 1; PM Program 3, Period 3
During this introductory session in Robotics, you will discover the basics of teamwork, planning, building, programming and competition with Robotics! Teamwork – You will learn how to share the work and have FUN! Planning – You will experience how to manage time and meet goals. Building – You will build ROBOTS! Programming – You will make the Robots do your bidding! The Competition – Time to put it all together!
Instructor: Joe Newton

Robotics Challenge Grades 4-9
AM Program 3, Period 2; PM Program 3, Period 4
During these advanced sessions in Robotics, you will discover the advanced aspects of teamwork, planning, building, programming and competition with Robots! Building upon the skills learned in earlier sessions will take you to the next level in your engineering career. You (along with instructors) will be supplied with more complex robotics training that will allow you to expand your Robo-knowledge. Teamwork – You will learn how to share the work and have FUN! Planning – You will experience how to manage time and meet goals. Building – You will build ROBOTS! Programming – You will make the Robots do your bidding! The Competition – Time to put it all together.
Instructor: Joe Newton
Rockin’ CrossTrain
AM Program 3, Period 1; Grades 2-6 & Period 2; Grades 4-9
Want to experience new and innovative ways to stay fit? Rockin’ CrossTrain is a high-energy class offering a mix of activities that maintain and improve overall fitness. With activities like Zumba, Kickboxing, Obstacle courses, and other aspects of Crossfit, you will keep your heart rate up, increase your focus, self-confidence, boost your metabolism, enhance coordination, and have fun!  
Instructor: Allyson Hall

Softball
AM Program 2, Period 2; PM Program 3, Period 4
Students will learn basic skills to be successful in the game of softball. Students will learn skills and play lead up games each day putting their skills learned into action. Each day will focus on coeducational softball games with instruction in fielding, throwing and hitting. Game tactics will also be included. The week will sum up with tournament style games.  
Instructor Program 2: Jimmy Phillips; Program 3: Matt Davenport

Rockin Fitness
AM Program 1, Period 1
Do you love Zumba, then you’ll love this class that is designed exclusively for kids 7-14 and is a rockin high-energy fitness party packed with specially choreographed, kid friendly routines with all the music kids’ love...like hip hop, raggaeton, cumbia and more. Increase your focus, self-confidence, boost your metabolism and enhance coordination. This will be tons of fun so why not join.  
Instructor: Amanda Pryor

Spirit Cheerleading
AM Program 1, 2 & 3, Period 1; PM Program 1, 2, & 3, Period 4
Come join the fun as we show off our spirit! In this class, we will learn all of the fundamentals of cheerleading. We will stress flexibility, strength, and confidence, but most of all, FUN! Jumps, pom routines, basic stunts and motions, many cheers, and teambuilding activities are all on the agenda. We will also be learning a cheer routine that will be performed at the end of the camp, to show off all of our new skills.  
Instructor: Chelsea Seabrook

Self Defense & Safety Awareness
AM Program 1, 2, & 3 Period 1 (For Girls) Period 2; Grades 2-6; PM Program 1, 2, & 3, Period 3; Grades 4-9, Period 4 (For Boys)
This class is about high energy training that’s very exciting and simple to learn. You’ll learn everything from punching & kicking drills with pads, to defense against grabs, chokes, weapons, along with ground defense. Not only will you get in great shape and have fun training, but you’ll build great confidence within yourself. Safety Awareness will teach you how to be safe and what to watch out for when you are at home. You will learn how to stay alert when you are out with your friends and how to get help if needed. Simple basic skills can help to keep you safe from all forms of harm.  
Instructor: Mr. Kenneth A. Barrett, Tang Soo Do Mi Guk Association.

Sticker Picture Mania
AM Program 1, 2 & 3, Period 2
Who doesn’t love stickers? Did you know you can use stickers to illustrate a story and to expand your creativity? We will have fun making sticker pictures and writing creative stories. Let your imagination get a little “sticke-y”!!  
Instructor: Julie Cripe

Soccer
AM Program 1 & 3, Period 2; PM Program 2, Period 3
Students will learn basic soccer skills and fundamentals to be successful in the game of soccer. Students will learn skills and play lead up games each day putting their skills learned into action. Each day will finish with small sided games to practice skills learned. Game tactics will also be included. The week will sum up with tournament style games.  
Instructor Program 1 & 3: Jimmy Phillips; Program 2 Matt Davenport

Team Handball
PM Program 1, Period 3
Learn the fast paced, exciting game that’s played in the Olympics. Students will learn and incorporate skills used in basketball, football, volleyball, and soccer in the game of team handball. Handball is a fun team sport, where a team works together and tries to throw a ball into a net guarded by a goalie. Students will practice and play in activities to be successful in the popular European sport while having fun!  
Instructor: Matt Davenport

Starfleet Academy: Star Trek Experience
Grades 3-9; PM Program 3, Period 4
The year is 2285 and Starfleet Academy is seeking boys and girls who are interested in learning about space and space exploration to come out and join the Academy. Students will be introduced to Starfleet Command, study the galaxies, learn the basics of starship construction and control and be instructed in leadership techniques. If you’ve ever dreamt about going “where no one has gone before,” this is the first step. Students who have already graduated from the Academy may return to continue their training as Starfleet officers.  
Instructors: Admiral Allen J. Venezio

Shake it Off to Today’s Pop Music
AM Program 3, Period 1; PM Program 3, Period 4
From Taylor Swift to One Direction, pop music is a growing obsession for all ages! In this class, we will explore the most popular and influential artists of today, idolized by many and met by few. Examine the artists’ inspiration for the hit music they create and dig deeper into their songs for all forms of harm.

Instructor: Courtney Hayes

SUPER HEROES
PM Program 2, Period 4
It is time to test your Super Heroes Knowledge. Does your favorite hero possess any superhuman powers or abilities? Does he/she make use of intellect, detective skills, technology, and physical powers? Play creative trivia games and see how much you really know. In the end, the smartest one will win the battle.  
Instructor: Enriqueta Salvatierra

Soo Do Mi Guk Association.
**Tennis**

**AM Program 1, 2 & 3, Period 1**

Students will be using tennis rackets and tennis balls that are just right for them as we develop knowledge, stroke production, consistency, hand-eye coordination, physical skills, motor movement, strength, health and self-esteem. The course consists of a warm-up exercise, instructional presentation, and tennis-related games that are designed for safety and fun. A tennis challenge tournament will also afford an opportunity to learn and progress. Rackets will be furnished or you may bring your own.  **Instructor: Jimmy Phillips**

---
