Grade Amnesty Instructions

Determine your "consideration point":

- Start at Fall Semester 2022
- Count back ten (10) years
- Land on Fall Semester 2012

Fall Semester 2012 is the first semester you may start blinding course work.

Set your "blind point":

- Determine how far behind your consideration point you wish to start blinding course work for manual GPA calculation
- Create balance among blinded coursework, loss of pre-requisite coursework, and GPA benefit
    - ENC1101 is preserved if completion of ENC1102 with minimum grade of "C" is not blinded
    - MAC1105 or MGF1106 is preserved if completion of higher level math course with minimum grade of "C" is not blinded
- All coursework including the semester you set blind point and behind is blinded- you may not pick and choose specific courses
- Grade Forgiveness applies before Grade Amnesty; blinded courses already cancelled by grade forgiveness yield not benefit in grade amnesty calculation

Update Request for Subsequent Application Attempts:

Each grade amnesty request is valid only for the application opportunity for which it is submitted. Subsequent application opportunities require updated grade amnesty requests. This applies whether or not you complete additional coursework.
