REFER TO ADMINISTRATIVE PROCEDURE NUMBER 3-07

It is the policy of the District Board that grading practices be consistent, equitable, and fairly applied to all students enrolled in a course.

Instructional faculty shall develop and implement appropriate methods for assessment of student performance. These methods will be described in each course syllabus.

Instructional faculty shall, at the end of each term or period of instruction, award a final grade to each student in each course that is, in accordance with their stated assessment methods, an accurate representation of the achievements, skills, competency and command of the course material the student has acquired.

The President is authorized to develop procedures to implement the awarding of grades and communicating the information to students.
