NEW BUSINESS:

1026-16 – SECOND READING: NAMING OF WORKFORCE DEVELOPMENT CENTER
Insight Credit Union has agreed to provide $2 million dollars to name the workforce center on the Leesburg Campus as the Insight Credit Union Workforce Center. This gift will be paid over a three-year period and will provide funding to pay for the furniture, fixtures, and equipment. Upon approval of the naming and the agreement, the Lake-Sumter State College Foundation will reimburse the College will for all equipment, furniture and fixtures up to $2 million dollars.
MOTION to approve the naming of Workforce Development Center, Dr. Dan Boggus, SECOND, Rep. Samantha Scott, motion passed unanimously.

1026-17 – FIRST READING: BOARD RULE 4.02 ADMISSIONS
The proposed revision to Board Rule 4.02, Admissions, updates the Board's existing rule to align with amended state requirements, including the requirement for applicants for admission to the College to provide an attestation and documentation of citizenship or lawful presence in the United States prior to admission and enrollment, respectively. Approval will ensure that the College's governing policy accurately reflects the minimum standards for admission applicable to Florida College System institutions required by SBE Rule 6A-10.0240. This item will come back to the next board meeting for a second reading and final approval.
This item was presented for information only.

1026-18 – FIRST READING: NEW BOARD RULE 7.07 ACTIVE ASSAILANT RESPONSE PLANS
New Board Rule 7.07 creates a requirement for an active assailant response plan to be brought to the Board for approval annually, as required by SBE rule, and outlines the required elements of this plan. This new rule also mandates training for faculty, staff, and students consistent with statute and SBE rule. This item will come back to the next board meeting for a second reading and final approval.
This item was presented for information only.

1026-19 – FIRST READING: NEW BOARD RULE 7.08 FAMILY REUNIFICATION

New Board Rule 7.08 creates a requirement for a family reunification and controlled release plan to be brought to the Board for approval annually, as required by SBE rule, and outlines the required elements of this plan. The rule requires the College to coordinate with local law enforcement in developing this plan. This item will come back to the next board meeting for a second reading and final approval.
This item was presented for information only.

1026-20 – PROPOSAL FOR MANAGEMENT SERVICES: LEGENDS WAY SOFTBALL COMPLEX

LSSC, Lake County, and (Orlando Health) South Lake Hospital entered into an Interlocal Agreement in October of 2007 whereby parties entered into a 25-year agreement to fund and develop the softball complex on the LSSC property on the South Lake Campus. If the 2007 Interlocal Agreement is terminated, then it terminates multiple agreements where PFXA, Inc. is a party, including the management and maintenance of the complex it has with SLH. LSSC would then have the ability to directly contract with a sports facility vendor to operate and maintain the complex if it chooses.
DISCUSSION: The Board reviewed management proposals for the Legends Way fields. President Temple stated that the termination process remained incomplete. Once completed, the College would have 90 days to secure a management agreement or assume responsibility for the fields. Mr. Roger Croft requested a performance review and assurances of improved management in the future agreement. He asked about "other activities" in the proposal and the College's right to refuse non-softball activities. Dot Richardson, representing PFX, identified those activities as youth leagues. Rep. Samantha Scott questioned the proposed PFX term, suggesting a shorter agreement to address vendor-performance concerns. Trustees discussed County assistance, Tourist Development Tax (TDT) funds, and Central Florida Sports Association support. They asked whether the College or a management partner could apply for TDT funds and whether the County could provide additional funding. Mr. Steve Munz questioned potential competition with neighboring fields and who would receive tournament profits. President John Temple suggested further review through the facilities committee or a workshop and County funding discussions. Trustees requested a side-by-side proposal comparison, maintenance and upgrade responsibilities, and the implications of tourism funding. Trustees emphasized confirming Lake County's willingness to consider a College-supported proposal before a final management decision. The Board requested review of the proposals and questions at the upcoming ad hoc facilities workshop, without a vote, and an opportunity for President Temple to discuss County funding assistance and report back.
MOTION to continue discussion of Item 1026-20 at the ad hoc facilities meeting for workshop discussion, Mr. Roger Croft; SECOND, Mr. Matt Silbernagel, motion passed unanimously.

1026-21 – ATHLETICS PROGRAM DISCONTINUATION: TRACK & FIELD

The Lake-Sumter State College Athletics Program currently sponsors Men's and Women's Track and Field as part of its NJCAA intercollegiate athletics offerings. After reviewing operational and administrative costs and the College's strategic priorities, the administration has determined that discontinuing the program is in the best interest of the institution. The College proposes to discontinue the Men's and Women's Track and

Field program effective upon the completion of the spring 2027 season. Current student-athletes will be provided transition support, including scholarship continuation for first-year students who wish to continue their studies next academic year. The College will work to ensure compliance with all applicable conference, association, and institutional requirements related to the program's discontinuation.

PUBLIC COMMENT:

- Cristy Snellgroves expressed concern that the Board was being asked to approve a decision that the College had already made or implemented. She discussed the program's success, student need, and concerns about how students had been treated.
- Student Arwyn Mann, speaking on behalf of the Track & Field team, stated that the team had acted together and was not influenced by the coach. She urged the Board to deny the College's request to discontinue track and field and not to proceed with the master plan of the proposed relocation of cross country. She expressed concern about unequal treatment and the manner in which the news had been delivered.

DISCUSSION:

President John Temple introduced the proposal to discontinue track and field. He referred to the college's funding pressures and previous individual discussions with trustees about reallocating resources. He said the review encompassed academic programs, athletics, and student opportunities, with the goal of directing limited funds toward the college's mission. He explained that athletics might be treated as an institutional program requiring board approval for discontinuation. President Temple said the college sought to make any change with enough notice for affected students to consider transferring if continued participation in the sport was their priority. The college would try to honor the scholarship commitments already made to current freshmen, potentially through another lawful scholarship arrangement, so students who stayed could continue their academic experience. Trustees questioned whether spending on sports helps students pursue higher education or meaningful employment and athletics must be evaluated within real budget constraints. Others discussed the distinct sports ecosystem around Clermont and the South Lake area, including potential education-to-employment opportunities.

Trustees noted that the program's comparatively low claimed per-athlete cost was worth verifying. Trustees shared that participating in sports could promote positive development and academic responsibility. Several Trustees expressed concern that the decision appeared to have been communicated before the board vote, and that the information about the financial situation and alternatives was not yet sufficiently clear. Information requested for a future workshop included: a sport-by-sport and per-athlete financial breakdown, including direct and allocated costs; a comparison of all athletic programs and options for savings; educational continuation and employment outcomes for student athletes versus the broader student population where available; detailed scholarship commitments and options; transfer pathways and realistic openings for affected students; and responses to the specific concerns and materials provided by the coach and students. Trustees also suggested consulting current and former coaches about alumni outcomes, leadership development, community service, and other benefits of intercollegiate athletics.

The Board agreed to continue the discussion at a workshop and request additional financial, student-outcome, scholarship, transfer-opportunity, and program information before making a decision.

MOTION to continue Item 1026-21 to a Trustee workshop for further discussion and review of additional information, Mr. Matt Silbernagel; SECOND, Ms. Samantha Scott, motion passed unanimously.

2027-2028 Early College Agreements

Background/References

Per the Florida Statute 1001.64 (6), Each Board of Trustees has responsibility for the establishment and discontinuance of program and course offerings in accordance with law and rule.

In accordance with Florida Statute 1007.273 (1), each Florida College System institution shall work with each district school board in its designated service area to establish one or more early college programs. As used in this section, the term "early college program" means a structured high school acceleration program in which a cohort of students is enrolled full time in postsecondary courses toward an associate degree. The contract must be executed by January 1 of each school year for implementation of the program during the next school year.

Description

The 2027-2028 Early College Agreements provide access to students in Lake and Sumter Counties to the following full-time opportunities.

Lake County: Lake County Early College Academy & Health Sciences Collegiate Academy

Sumter County: Sumter County Early College Academy & The Villages Early College Academy

The following changes were implemented between last year and the upcoming year.

- Clarified the 11th grade start year for all academies
- Added language to refer to dual enrollment agreements for full details on application process and requirements
- Added language on lawful presence documentation and annual threat training
- Updated verbiage on withdrawal process
- Clarified that student performance contract must be signed before student can register for classes
- Added an Engineering Track to the HSCA program

The agreements were previously provided to the Trustees by email.

Recommendation

Motion to approve the 2027-2028 Early College Agreements as written.

ITEM 1126-09

UFHealth Leesburg Clinical Simulation Lab Agreement

Background/References

Lake-Sumter State College and UFHealth Central Florida have partnered to create a simulation lab on the UFHealth Leesburg site. The construction of the lab is nearing completion and LSSC Nursing will use the facility starting in January 2027.

According to Florida Statutes 1001.64 (5); Each board of trustees shall have responsibility for the use, maintenance, protection, and control of Florida College System institution owned or Florida College System institution controlled buildings and grounds, property and equipment, name, trademarks and other proprietary marks, and the financial and other resources of the Florida College System institution.

Description

UF Health donated $1.25 million to cover architectural design and building renovations, which unlocked a dollar-for-dollar $1.25 million state match through Florida's Linking Industry to Nursing Education (LINE) grant program. The state matching funds allowed LSSC to purchase $1.25 million in equipment needed in the simulation space including high fidelity manikins, Learning Space replay technology, Pyxis system, sim ventilator, hospital beds, and furniture for the simulation center.

This license agreement between LSSC and UF Health Leesburg Hospital details the facility use by the partners and responsibility for utilities, housekeeping, and maintenance and repairs of equipment among other items in the use of space and equipment in the lab. The sim lab will be used by the LSSC Nursing Department as well as UF Health for training and education.
The agreement was previously provided to the Trustees by email.

Recommendation

Motion to approve the UFHealth Leesburg Clinical Simulation Lab Agreement as written.

ITEM 1126-10

USF State Specific Mental Health Awareness Training Pilot MOU

Background/References

In 2026, the Florida Legislature passed HB 757, the ARMOR Act (Active Response and Mitigation of On-Campus Risk Act) and was signed into law by Governor DeSantis. In September, the State Board of Education (SBE) created Rule 6A-14.012 to implement the provisions of the law. Each institution must adopt policies and procedures to support student mental health and behavioral health intervention, including required training for faculty to learn how to detect and respond to students exhibiting behavioral health concerns.

Description

The University of South Florida's School Mental Health Collaborative has collaborated with Lake-Sumter State College in a Memo of Understanding (MOU) for a State-Specific Mental Health Awareness Training Pilot Collaboration for higher education faculty and staff. This is a non-monetary collaboration. The 90-minute asynchronous training is intended to strengthen faculty and staff knowledge and capacity related to detecting and responding to student mental health issues and connecting students with relevant campus, community, and state resources.

Participation in this pilot does not obligate either Party to participate in any future agreement, implementation, or fee-based service.
The agreement was previously provided to the Trustees by email.

Recommendation

Motion to approve the USF State Specific Mental Health Awareness Training Pilot MOU as written.

ITEM 1126-11

Contract Renewal for Custodial and Grounds Services with ABM

Background/References

In 2023, a contract was executed between Lake-Sumter State College and ABM to provide Custodial and Grounds Services at the Leesburg Campus, South Lake Campus, Sumter Center, and Four Corners(no Grounds Services at this location) after the college conducted an RFP for these services.

Florida Statute 1001.64, paragraph 5, indicates that each Florida College System institution board of trustees shall have responsibility for the use, maintenance, protection, and control of Florida College System institution owned or Florida College System institution-controlled buildings and grounds, property and equipment, name, trademarks and other proprietary marks, and the financial and other resources of the Florida College System institution.

Description

The term of the contract is for a period of three (3) years with two (2) one-year renewable terms options exercisable by mutual agreement of the parties. At the end of each twelve (12) month period during the Term of this Agreement, the price shall be increased by the greater of a) 3% or b) a percentage equal to the percentage increase in the Consumer Price Index for All Urban Consumers (CPI-U) during the twelve (12) month period immediately prior to the first day of the then current annual period.

The pricing effective Nov. 1, 2026 reflects a 3.4% CPI increase with an annual cost of for Custodial Services of $864,381.02 and annual cost of Grounds Services of $580,997.57. The new total annual cost for Custodial and Grounds Services will be $1,445,358.59 which translates into a monthly cost of $120,446.55.

This contract extension would be for the first year of the allowable two (2) one-year renewable term options.
The contract was previously provided to the Trustees by email.

Recommendation

Motion to approve the contract renewal for Custodial and Grounds Services with ABM as written.

- Paquette Paving Company resurfaced three parking lots around campus including the Silver Lake lot, HWY 441 Bldg. M lot, and parking lots and driveways around the Facilities Bldg.
- The 570 ton Trane chiller in the Chiller Plant is now operational again.
- The Workforce Development Center is currently completing the Schematic Design phase.
- The Nursing Simulation Lab in Health Sciences Center has been renovated with new flooring, paint, and Elevate Health replay system to record simulation exercises.
- The construction of a batter's eye for the baseball field is almost complete using funds from donors to the program.
- A nuclear scan of the Fine Arts Center roof was conducted to prepare for renovations.

South Lake Campus

- Science-Health Partnership Bldg. hallways received a fresh coat of paint.
- Engineered Cooling Services is taking over the service agreement for the Bldg. 2 chiller.
- Core Roofing is assisting with multiple roof leaks from a recent storm in Bldg. 1 and Cooper Memorial Library.

Sumter Center

- HVAC and controls work has been started on the Bldg. 4 mechanical systems.
- A new vendor has evaluated the Bldg. 5 HVAC system and has made recommendations for improvement to the system.
- The Bldg. 5 restroom vent stacks have been extended to the exterior of the building instead of into the attic space.

UF Health Simulation Lab

- Construction is near completion with LSSC Nursing use beginning in January 2027.

Financial Services Division
Update for the President and District Board of Trustees
November 2026

Michelle Matis, Vice President of Finance and Chief Financial Officer

Learning and Work Environment

- Audit fieldwork continued through October and is mostly wrapped up in early November.
- Exit Meeting held November 4 and no major concerns or issues were identified by the auditors. Expect the full report to be issued late November or early December.
- Next Operational Audit for calendar year 2026 was announced by the auditors. Fieldwork expected to commence in Spring 2027.
- Open positions in Accounting and Payroll were recently filled.
- Staff are preparing for FY28 budget development. This includes shifting the timeline for reviewing course and lab fees to mid-November through mid-December. The first review of FY28 tuition and fees will be presented to the DBOT in January.
- Submitted encumbrance request to state for authorized PECO funding. Once the signed authorization is received, the revenue will be recorded and can begin submitting for reimbursement of eligible expenses.
- Accounts Payable processed 358 invoices for payment in October totaling $1.5M and reconciled 222 individual credit card transactions from the September corporate card statement.
- Procurement issued 77 Purchase Orders for the month of October.
- Student Accounts is monitoring unpaid balances:

Term	Students	Amt
Fall '25	195	$ 275,512
Spring '26	240	$ 314,910
Summer '26	271	$ 370,850
Fall '26	758	$ 891,111
	1,464	$ 1,852,382

Student Learning and Success

- Campus Store sales for October totaled $7,484 with 776 transactions. Food & beverage was the leading sale category with $2,233 in sales followed by clothing at $2,520. Fiscal YTD sales for the store total $19,823 with 2,483 transactions.

Technology Innovation Division
Update for the President and District Board of Trustees
November 2026

Nick Kemp, Vice President of Technology Innovation and Chief Information Officer

Learning and Work Environment

Cybersecurity

- Processed more than 130,000 phishing emails in October, bringing the year-to-date total above 872,000. Responded to compromised accounts and evolving attacks to protect College users and systems.
- Reviewed the Vector Solutions cybersecurity curriculum and developed a Lake-Sumter-specific training component. Incorporated employee responsibilities from Administrative Procedure 7-06 to clarify cybersecurity expectations.

Institutional Effectiveness

- Institutional Effectiveness and Enterprise Systems launched a Daily Enrollment Dashboard comparing daily enrollment with prior-year performance and historical averages. Earlier visibility into changes by program and student population supports timely, targeted outreach and more informed enrollment decisions.
- Reviewed enrollment trends, program capacity, and growth opportunities to assess 2026–27 and five-year enrollment projections. Findings supported retaining the 2026–27 projection of 5,701 FTE.
- Updated the Program Review Dashboard for the 2026–27 review cycle. Consistent, accessible institutional data supports evaluation and planning for selected AA pathways, AS programs, and BS programs.

Education Technology

- Launched VR headset use with VirtualSpeech software in the SL speech lab. Initial participation includes faculty and students.

Enterprise Systems

- Replaced legacy Visual Basic scripts with Python and PowerShell to automate employee directory updates, improve data accuracy, and reduce security risks. Deployed without website disruption, the new process reduces maintenance demands and frees IT staff for other priorities.

Technology Infrastructure

- Integrated Everbridge with InformaCast to automate campuswide emergency notifications, eliminating manual activation and reducing staff effort during emergencies. Coordinated alerts across administrative and student-network desktops, indoor speakers, and outdoor speakers extend the value of existing systems.
- Upgraded PaperCut and deployed new print servers across three campuses. Transitioned printing, scanning, monitoring, and backups to support reliable service and simplify maintenance.
- Deployed a Technology Infrastructure dashboard to track ticket communications, workload, and results. Actionable data strengthens accountability and helps target staff effort toward customer follow-up and completed work.
- Improved clarity across TeamDynamix work-order notifications to help customers understand request updates. Clearer messages aim to reduce follow-up inquiries and staff time spent explaining ticket status; savings have not yet been measured.
- Expanded Rubrik backups across five service areas: faculty and staff OneDrive, Teams, SharePoint, administrative Active Directory, and student Active Directory. Broader coverage strengthens the value of existing backup investments and reduces exposure to data loss and costly recovery efforts.

District Board of Trustees for
Lake-Sumter State College
9501 U.S. Highway 441
Leesburg, Florida 34474

Re: Board Attorney Report for November 18, 2026

Dear Trustees:

Below is an update on several matters of interest to the Board.

Rebecca Nathanson. Former employee Nathanson hired counsel to represent her in regard to her claims of "age discrimination, failure to promote, wrongful termination of employment, disability discrimination, FMLA interference, intentional infliction of emotional distress and negligent infliction of emotional distress." Her attorneys seek disclosure of College insurance policies pursuant to s. 627.4137, Florida Statutes, and preservation of documents related to her employment with the College. A pre-suit settlement demand has been received from Ms. Nathanson. Attorney Brian Koji is defending the College in this matter.

Ms. Nathanson previously filed an EEOC claim (FCHR 2026118206; EEOC 15D-2026-00602) based on the same allegations. The Florida Commission on Human Relations was unable to conclude the investigation within 180-day statutory timeline therefore they declined to determine whether there was cause or no cause to believe a violation occurred.

Student Claim of Discrimination, OCR Complaint No. 04-26-2263 (formerly 04-25-2645). The student filed a claim of discrimination based on race and disability, and retaliation with the Office for Civil Rights. Pre-investigative mediation was held March 31, 2026; however, a settlement was not reached. OCR issued a new case number and will begin its investigation into the claim. The College has responded to the OCR investigator's request for data.

If you have any questions, please feel free to call me. I look forward to seeing you at the Board meeting.

Respectfully submitted,

Anita Geraci-Carver

ITEM 1126-15

Second Reading: Board Rule 4.02 Admissions

Background/References

The State Board of Education amended Rule 6A-10.0240, Florida Administrative Code, Minimum Standards for Admission to Florida College System Institutions, in June 2026. The amended rule establishes minimum admissions standards and requires each Florida College System institution's board of trustees to adopt policies consistent with those requirements.

Description

The proposed revision to Board Rule 4.02, Admissions, updates the Board's existing rule to align with amended state requirements, including the requirement for applicants for admission to the College to provide an attestation and documentation of citizenship or lawful presence in the United States prior to admission and enrollment, respectively. Approval will ensure that the College's governing policy accurately reflects the minimum standards for admission applicable to Florida College System institutions required by SBE Rule 6A-10.0240. This item is being brought back for final approval.

Recommendation

Motion to approve updated Board Rule 4.02 Admissions as written.

First Reading of Board Rule 7.10 Threat Management Team

Background/References

In 2026, the Florida Legislature passed HB 757, the ARMOR Act (Active Response and Mitigation of On-Campus Risk Act) and was signed into law by Governor DeSantis. In September, the State Board of Education (SBE) created Rule 6A-14.012 to implement the provisions of the law. Each Florida College Institution must create a Threat Management Team (TMT) and adopt policies and procedures for a threat management process.

Description

New Board Rule 7.10 outlines the requirements of a Threat Management Team as well as the composition of its members, including at a minimum, Core Four members who are identified in the rule.

This item will come back to the next board meeting for a second reading and final approval.

Recommendation

This item is for informational purposes only.

LAKE-SUMTER STATE COLLEGE
BOARD RULE

TITLE: THREAT MANAGEMENT TEAM **NUMBER:** 7.10

AUTHORITY: Federal and Florida Law and regulations including Section 1006.601, Florida Statutes, Rule 6A-14.012, Administrative Procedures Act (Florida Statute 1001.64), Florida Administrative Code, when effective, the Florida Postsecondary Threat Management Protocol, Family Educational Rights and Privacy Act (FERPA).

DATE ADOPTED: *1/xx/2027*

HISTORY: NEW - *1/xx/2027*

Lake-Sumter State College shall establish and maintain a threat management process in accordance with Section 1006.601, Florida Statutes, and Rule 6A-14.012, Florida Administrative Code.

The President shall establish one or more Threat Management Teams (TMTs) as appropriate for the College and shall appoint the members of each team.

Each TMT shall include, at a minimum, Core Four members:

1. An administrator;
2. A sworn law enforcement officer;
3. A student services or counseling team member; and
4. A member with expertise in instruction, which may be a faculty member, dean, or department head.

The TMT shall coordinate resources and conduct assessment and intervention for students whose behavior may pose a threat to the safety of the College, College employees, or students.

If no TMT member is familiar with the student of concern, the TMT shall attempt to consult with an individual who is familiar with the student. A person consulted for this purpose shall not participate in the TMT's decision-making process.

If the student of concern is a dual enrollment student from a Florida public school, and the reported behavior occurs on College property or in a College class, the TMT must conduct the threat assessment and manage the student, in consultation with the student's K-12 school's threat management team, including when the College determines if the student may no longer participate in dual enrollment. If the reported behavior does not occur on College property or in a College class, and the College is notified first of the incident, the

College shall refer the matter to the student's K-12 school to conduct the threat assessment and, manage the student in consultation with the College's TMT.

The President shall designate an Institutional Triager or Triage Team to receive, review, document, and triage all reports of concerning behavior, concerning communications, or threats, regardless of how the report is received.

The Triager or Triage Team shall document basic information concerning the report, determine whether the report has a factual basis, and determine whether the matter should be referred to the TMT or another appropriate College team.

The President shall also designate an administrator who is not a member of the TMT to review and approve completed threat management documentation, including the final level of concern and disposition of the case.

The TMT shall use the Florida Postsecondary Threat Management Protocol and the required forms incorporated by reference in Rule 6A-14.012.

All reported threats, concerning behaviors, and concerning communications, including reports determined to be unfounded, shall be documented along with any resulting action using the required Florida Postsecondary Threat Management Protocol documentation.

The Core Four members of each TMT shall meet as often as necessary to fulfill the team's duties, but no less than monthly. The College shall maintain documentation of TMT meetings, including meeting dates, members in attendance, matters discussed, and actions taken.

TMT members, persons responsible for triage, and administrators responsible for final administrative review shall complete the training required by Rule 6A-14.012 and the Florida Postsecondary Threat Management Protocol.

Threat management records shall be maintained and handled in accordance with Rule 6A-14.012 and applicable requirements governing education records.

The President or designee shall establish and maintain an administrative procedure, which shall contain the explicit operational details for implementation of the College's threat management process, including responsibilities, reporting and triage processes, assessment and intervention procedures, required documentation and forms, training, meetings, records management, transfer of records, case review and disposition, and required reporting and certifications.

ITEM 1126-26

FY27 Budget Amendment Transfers from Fund 1

Background/References

Pursuant to state Rule 6A-14.0716, the College must prepare and submit a budget for the Current Unrestricted Fund to the Chancellor of the Florida College System as designee of the Commissioner of Education. In accordance with Florida Statutes 1011.30, the operating budget must be approved by the College's District Board of Trustees prior to submission to the Department of Education.

The Board is authorized to amend budgets in accordance with laws, rules and accepted educational and fiscal principles. Upon authorization from the Board of Trustees, transfer of funds from the Current Unrestricted Fund (Fund 1) to other funds also require approval by the Department of Education.

Description

The President recommends the proposed FY27 budget amendments transferring funds from the Current Unrestricted Fund (Fund 1) to the Unexpended Plant Fund (Fund 7), and to the LSSC Foundation as follows:

Source	Amount	From	To	Purpose
Health insurance refund	$ 1,300,000	Fund 1	Fund 7	New Eustis site
EBS license sale proceeds	$ 3,125,000	Fund 1	LSSC Foundation	Establish perpetual funding source for College projects

Recommendation

Motion to approve the FY27 budget amendment transfer from Fund 1 as written.

ITEM 1126-27

Management Services for Legends Way Softball Complex

Background/References

According to Florida Statutes 1001.64 (5); Each board of trustees shall have responsibility for the use, maintenance, protection, and control of Florida College System institution owned or Florida College System institution controlled buildings and grounds, property and equipment, name, trademarks and other proprietary marks, and the financial and other resources of the Florida College System institution. Such authority may include placing restrictions on activities and on access to facilities, firearms, food, tobacco, alcoholic beverages, distribution of printed materials, commercial solicitation, animals, and sound.

Description

LSSC, Lake County, and (Orlando Health) South Lake Hospital entered into an Interlocal Agreement in October of 2007 whereby parties entered into a 25-year agreement to fund and develop the softball complex on the LSSC property on the South Lake Campus. If the 2007 Interlocal Agreement is terminated, then it terminates multiple agreements where PFXA, Inc. is a party, including the management and maintenance of the complex it has with SLH. LSSC would then have the ability to directly contract with a sports facility vendor to operate and maintain the complex if it chooses.

Recommendation

It is recommended that the District Board of Trustees take action on this item.
